

SAFC Hitech™ offers a visionary approach to materials technology

At SAFC Hitech our visionary approach to materials technology keeps us one step ahead of the changing materials needs of our customers.

Over a quarter of a century of experience as leaders in the rapidly evolving compound semiconductor market has prepared us with the pedigree, supply chain expertise, foresight and long-term collaborative relationships to realize your ideas and minimize total cost of ownership, wherever in the world you need it.

To find out about our unique and collaborative approach to materials technology, and to see why we are at the forefront of technology, simply email SAFC Hitech today at safchitech@sial.com

**Advanced Molecules for Compound and Silicon Semiconductors
plus Photovoltaics Precursors.**
