

Leading producer of InP wafer for foundries using steppers

InPACT produces InP substrates and mainly 4inch diameter for
- telecom (PIC /photonic integrated circuits)
- electronics (HBT chips)

InPACT has state of the art flatness (on 4 inch)

one flatness map of a 4 inch wafer

(TTV =3.12 µm)

InPACT & III-V Lab ➤ Epi/chips From NRE to production

- 10G APD chips
- Al based DFBs epi wafers
- HBT epi wafers
- RSOAs chips
- BH regrowth
- ebeam grating service ...
